(3) EU Health Policy Platform - Networks

Six types of NETWORKS

1. **Agora Network: first filter to the Platform.** It is a **common space** where all registered users can post news and events and discuss issues of common interest.

2. **Thematic Networks**: temporary networks for stakeholders to speak with one voice, where a leading organisation prepares **Joint Statements** on agreed health issues. All users with access to the Agora can enter these networks. The Thematic Networks cycle last between 6 to 9 months.

3. **Exchange networks**: open to all registered users, some meant to host training material for health professionals.

4. **Stakeholder networks**: for and by stakeholders, used to prepare and follow-up meetings; share, work on and store documents. Access to these networks is restricted.

5. **Commission and Member State-led networks:** administered by EC or MS, prepare and follow-up meetings; share, work on and store documents. Access to these networks is restricted.

6. **Moderators' Network:** this network is used to familiarise Platform network moderators with the EU Health Policy Platform and to provide trainings for them.
