

EU 4Health NFPs Interaction Platform – Quick-start guide

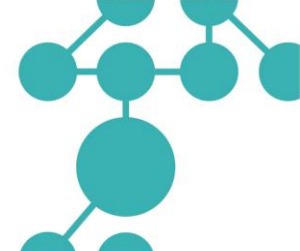

This guideline document aims to provide National Focal Points with a quick-start tool on how to use the platform and therefore benefit from its added value.

The EU4Health NFPs Interactive Platform is also linked to the [JA NFP4Health website](#) developed in the framework of the project's activities. Moreover, a direct link of the ongoing news publication will be available on the NFPs Interaction Platform as well.

NAME	EU4Health NFPs Interaction Platform
LINK	<p>Homepage</p>  <p>Registration</p> <p>In order to access the platform, it is necessary to register and indicate: NFP Nomination and/or NFP Team Member</p> 
OBJECTIVE	The NFPs Interaction Platform is aimed at becoming a concrete tool aiming at reinforcing

	<p>the EU4Health NFPs's network also within the wider scope of maximizing the EU4Health divulgation and impact on the national, regional and local ecosystems.</p> <p>The Interaction Platform is a tool that ensure a strong communication channel among and will contribute to the process of strengthening the knowledge and capacity of NFPs.</p> <p>In quality of WP6 "Capacity Building for NFPs" Leader – ProMIS Programma Mattone Internazionale Salute (affiliated entity of the Italian Ministry of Health) will moderate the platform activity as key WP deliverable.</p> <p>WP6 aims at reinforcing knowledge and skills of NFPs responsible for the brand new EU4Health programme and its wider scope with its new areas, new instruments, as well as possibilities and synergies offered by other EU health related instruments. Objectives: to have more knowledgeable and skilled NFPs in the Member States and associated countries; to support equal opportunities to access to the EU4Health Programme for all Member States; to cover the gap of knowledge for NFPs in the transition from the old to the new programme by delivering a training plan targeting all NFPs.</p>
STRUCTURE	<p>The platform is divided into the following sections:</p> <ul style="list-style-type: none"> • Home • News • JA NFP4HEALTH, a direct link to the official JA website • Activities, in turn divided into the various interactive sub-sections (Dashboard, Marketplace, Training, Agorà, EU Project DB, Q&A)
	<p>The Marketplace section is a digital repository useful in order to upload, share, exchange relevant documents related to the EU4Health</p>

<p>MARKETPLACE</p> 	<p>programme initiatives and other health related programmes that are not opened to a wider public. Concomitantly, as per the WP4. “Sustainability of action and integration in national policies”, other pertinent documents at the national level could be shared per information. The uploaded documents will be filtered through the Member States flag in order to provide a fast and easier identification.</p> <p>Content Guideline</p> <p>What will the Marketplace Section include:</p> <ul style="list-style-type: none"> • Official Documents from the EU Institutions related to the EU4Health Programme: EU4Health Regulation, Annual Work Programmes, Opinions from the European Parliament, etc... • Events related to the public health programme and other health related programmes: Infodays, Webinars, Brokerage Events, Stakeholders Events (Agendas, Minutes etc.) • Strategic Documents linked to the implementation of EU4Health Programme at the national level • Other Documents within the internal scope of the JA NFP4Health’s activities, such as Deliverables, Preparatory Reports, Agendas,
<p>TRAINING</p>	<p>The Training Section is dedicated to the EU4Health Training online and onsite (Mod. 1 and Mod. 2) as part of the WP6’s activities. Ideally this section could also welcome the possibility to follow other congruent initiatives that NFPs are organizing at the national level. This section in particular is aiming at providing a digital and useful repository containing all relevant follow-up materials: power point</p>

	<p>presentations, agendas, and other documents. This dedicated part on the platform will also become a practical calendar listing all the training appointments. As known, the WP6 Training targeting the NFPs, is one of the key project's activities, providing a well-established programme and contributing to the NFPs capacity building.</p> <p>Important: The Training Session intends to also become an opportunity to share and follow congruent initiatives at the national level (promotion of DG SANTE Annual Work Programmes with national/regional programmes and services. Etc).</p>
<p>AGORÀ</p> 	<p>Agorà is a section aiming at providing a live interaction among NFPs. The concept is to have the possibility to use a live chat in order to boost communication and strengthening the NFPs network.</p> <p>Users will be able to submit topics, comment under posts, and get notifications when participating.</p>
<p>EU PROJECT Database</p> 	<p>The ProMIS Database, available at the following LINK intends to become (a non-exhaustive) collection of projects – in the health, research and innovation field – of different stakeholders from different Member States, co-funded by direct funds from the European Commission within the 2021-2027 programming period.</p> <p>The Database system allows to directly fill-in online surveys in order to collect key</p>

	<p>information (ENG). Therefore, it enables an identification of European projects funded in the field of public health as well as allowing to develop targeted statistical studies (excellence, products, economies, resources etc.) thus supporting the process of identifying transferable practices, activated/activatable synergies as well as the planning/design process of vertical and/or system initiatives.</p>
<p>Q&A</p> 	<p>This section will provide an additional resource supporting the live exchanges found in Agorà. Participants will be able to easily access the backlog of questions and answers.</p> <p>The session is principally oriented towards technical questions regarding the EU4Health Programme implementation.</p>
